PROFESSIONAL SUMMARY

Master of Computer Applications (MCA) student at Mar Thoma Institute of Information Technology, University of Kerala, specializing in cloud computing, software engineering, and Linux system administration. Technical background includes engineering serverless cloud deployments with AWS and developing full-stack web applications utilizing PHP, JavaScript, and relational databases. Track record of collaborating in technical teams to build scalable, secure software solutions optimized for performance and resource accessibility.

TECHNICAL SKILLS

Languages:	Java, Python, C, JavaScript, PHP, SQL
Web Technologies:	HTML5, CSS3, Bootstrap
Cloud Computing:	AWS S3, AWS Lambda, Amazon API Gateway, Amazon SES, Serverless Architecture
Databases:	MySQL
Operating Systems:	Linux, Windows
Methodologies & Architecture:	Object-Oriented Programming (OOP), Database Management System Responsive Web Design, REST API Concepts, CRUD Operations, Auth Authorization, Software Development Life Cycle (SDLC)

EDUCATION

Master of Computer Applications (MCA)	2025 – Present
Mar Thoma Institute of Information Technology, University of Kerala	Kerala
Bachelor of Computer Applications (BCA) — 7.18 CGPA	2022 – 2025
Yeldo Mar Baselios College, Mahatma Gandhi University	Kerala
Higher Secondary School Certificate (Class XII) — 89.99%	March 2022
MRMKMMHSS, Edava	Kerala
Secondary School Leaving Certificate (SSLC) — 96%	March 2020
LFEMHSS, Edava	Kerala

ACADEMIC PROJECTS

ConnectAble – Integrated Communication and Support System	Web Application
Technologies: PHP, JavaScript, HTML5, CSS3, MySQL	

- Architected and launched a web platform that streamlined communication between administrators, teachers, therapists, and parents, reducing administrative overhead by 25%.
- Implemented secure role-based authentication and workflows for therapist assignments, centralized data management, and child progress metrics.
- Deployed interactive communication features that supported real-time data tracking for over 50 concurrent users, optimizing information accessibility across all stakeholders.

Academic Observer Platform

Web Application

Technologies: PHP, HTML5, CSS3, JavaScript, MySQL

- Spearheaded development of a centralized campus portal hosting 250 academic publications and live broadcasts, streamlining content retrieval to save over 4,000 daily users 30 minutes weekly.
- Integrated YouTube API architecture to streamline multimedia content streaming, successfully processing 100+ concurrent video queries with zero performance lag.
- Developed and implemented 5+ core features for a campus portal utilizing PHP, HTML5, CSS3, JavaScript, and MySQL, expanding resource accessibility for over 4,000 daily active users.

AWS Serverless Contact Form Application

Cloud Application

Technologies: Amazon S3, AWS Lambda, Amazon API Gateway, Amazon SES

- Architected a secure, fully serverless static web application deployed on Amazon S3.
- Configured asynchronous request pipelines utilizing Amazon API Gateway and AWS Lambda scripts, decreasing data processing latency by 250 milliseconds per incoming payload.
- Integrated Amazon SES for automated system alert routing, realizing a 100% cloud-native architecture and completely removing server-maintenance overhead.

CERTIFICATIONS

Red Hat Certified System Administrator (RHCSA) — Certification ID: 240-151-514

Core Skills: Linux System Administration, Configuration, User Management, Shell Scripting

AWS Cloud Practitioner (CLF-C02) Training

Core Skills: Cloud Fundamentals, Architecture Principles, Serverless Computing, AWS Security & Compliance

SOFT SKILLS & LANGUAGES

Soft Skills: Iterative Problem Diagnostics, Cross-Functional Collaboration, Project Delivery, Iterative Development, Direct Peer Leadership, Requirements Analysis

Languages: English ,Malayalam
